Phone: +91 8310777365 | [Email: yashaswini11092005@gmail.com](mailto:yashaswini11092005@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Year	Degree	Institute	CGPA / %
2023 – 2027	B.Tech – Computer Science & Engineering	Dayananda Sagar University (DSU)	8.81 / 10 (Till 6th Sem)
2021 – 2023	12th Grade – Karnataka State Board (PCMB)	Christ Academy Junior College (CAJC)	85.5%
2011 – 2021	10th Grade – CBSE	New Baldwin International School (NBIS)	70%

PROJECTS

ERAAS – Emergency Response Agentic AI System | *FastAPI, Gemini API, WebSocket, SQLAlchemy, Leaflet.js*

[Live Demo](#) | [GitHub Repo](#)

- Built a Perceive → Reason → Act → Reflect agentic MVP for PS186, with a simulated real-time incident feed driving a continuous agent loop.
- Developed a real-time WebSocket backend for sub-second synchronization with the dispatcher dashboard.
- Integrated Human-in-the-Loop (HITL) overrides to combine AI speed with strict manual safety checks.
- Live Leaflet map dashboard color-codes incidents by severity with human dispatch/resolve override; automated pytest suite and C4 architecture docs; deployed on Render.

ProtoDraft AI: Clinical Protocol Generator | *Google Gemini API, JWT (JSON Web Tokens) React, Vercel, Render*

[Live Demo](#) | [GitHub Repo](#)

- Built a full-stack Generative AI application using React, Node.js, and Google Gemini to automate clinical trial draft.
- Engineered a 3-stage AI pipeline to automate ICH-compliant clinical trial schedules and protocol synopses.
- Secured sessions with JWT authentication and deployed the full-stack architecture on Vercel and Render.
- Designed a mobile-first, animated UI wizard using Tailwind CSS to streamline complex data inputs.

RockShield AI – Rockfall Prediction & Alert System | *Python, TensorFlow, PyTorch, Scikit-learn, React.js, Django*

[GitHub Repo](#)

- Digital Twin rockfall prediction: 3D terrain modeling, live sensor data, physics-based + ML surrogate models.
- Risk classification (Scikit-learn, PyTorch, TensorFlow) on a color-coded hazard dashboard with weather API integration.
- Automated Twilio/SMTP evacuation alerts; shortlisted for SIH 2025, Disaster Management (SIH25071).

EXPERIENCE

IBM Cloud & AI – Emerging Technologies | *IBM Cloud, Watson AI, ML Deployment*

- Hands-on with IBM Cloud, Watson AI, Cloud Object Storage, and ML deployment pipelines.
- Certified through IBM Skills Build (Edunet Foundation).

PUBLICATION

Co-authored and published a research paper, "Explainable CNN Framework for Automated MRI Distortion Detection" (94.5% accuracy, Grad-CAM based interpretability), in the proceedings of an IEEE conference hosted at Dayananda Sagar University.

TECHNICAL SKILLS & CERTIFICATIONS

Languages: Python, Java, C, HTML, CSS, JavaScript

Technologies / Frameworks: Machine Learning, Data Preprocessing, Full Stack Development, GitHub, Power BI, Data Visualization, UI/UX Design

Certifications: Python Course Completion – GeeksforGeeks; Skills Build & IBM Cloud – Edunet Foundation; Fundamentals of Power BI
